Celebrating 200 years of Modern Engineering Education in Egypt

Theme:

On the occasion of celebrating 200 years of Modern Engineering Education in Cairo, A group of International students (from 6 to 10 countries) will be invited to spend a week in Egypt (2nd week of winter vacation); full of Academic and Cultural activities to share our history and achievements in the Engineering field among different ages and to broaden cooperation with different universities for future International events.

- The following program is suggested:

Opening (1st day):

- 1. Briefing about history of Civil Engineering in Egypt → *Speech by the Dean of CUFE***
 - a. Emphasize the role of real estate market nowadays (Private Residential Compounds, Sea Resorts and Hotel flats)
 - b. The major civil Engineering companies in Egypt and some of their projects (Orascom with the Grand Egyptian Museum)
 - c. Civil Engineering achievements across our History (The High Dam, Salam Bridge and Cairo tower).
- 2. Two or less speakers to talk about history of engineering schools and celebrating 200 years this year → *Speech by Dr. Wagdy "as the academic advisor"***
 - a. Should greet the guests and talk about the excitement that awaits them
 - b. Talk about the sites guests will visit and how they are very vital
 - c. Talk about the importance of Civil Engineering in Egypt and how Construction industry contribute to local Egyptian GDP
- 3. An outline for the week plan (IACES board member)**
 - a. What sites will be visited? Giving out the details for each site with time and date
 - b. What are the activities available for guests?
 - c. A detailed timeline for the week as a whole
- 4. Professors responsible for Pyramids archeological exploration site (In case plan A)**

**Some Pharaonic gifts should be given to guests to give out a sense of Egyptian tradition and hospitality.
